elnagh

ELNAGH IS AN INTEGRAL PART OF THE HISTORY OF THE ENTIRE RECREATIONAL VEHICLE INDUSTRY WITH 70 YEARS OF ACTIVITY BEHIND IT.

ARCHITECTS OF IDEAS, CREATORS OF UNIVERSES

Before telling a story, Elnagh tells its vision, a point of view on the future that began when no one was talking about aesthetics, design and made in Italy. Elnagh is continuously listening. If you do not listen, you cannot be heard, just as if you do not observe, you cannot create any novelty. Every project is function and emotion, every detail is research and awareness; this is the sense of creating for Elnagh, drawing a movement of ideas around the journey. Elnagh is the brand for those looking for practical, functional solutions for their motorhome travel. It offers a complete range of models and types. Historic ranges with a long tradition, recognised and recognisable, which are never old fashioned.

ELNAGH IS AT YOUR SIDE!

Your Elnagh dealer can advise you on the choice of the most suitable vehicle for you and respond competently to your requests. The qualified points of sale that distribute the Elnagh brand today give the brand real added value. An organised, targeted network supported by continuous training on technical topics and workshop interventions.

WHY CHOOSE ELNAGH

SPECIALISATION, SOLIDITY AND STRENGTH.

The guarantee of a consolidated production for well over 70 years together with the knowledge, expertise and experience of the Elnagh production team will provide you with a solid and durable vehicle.

CONCRETE AND PRACTICAL SOLUTIONS, FUNCTIONAL SPACES

Elnagh has always paid particular attention to technological, construction and quality solutions that guarantee a motorhome full of concrete and practical contents, in short, an intelligent motorhome.

CLASSIC TASTE WITH ATTENTION TO DETAILS AND COMFORT

It offers elegant solutions in a classic style, with special attention to living comfort. It refrains from contrasts or stylistic excesses. Elnagh is a product that remains constant over time, it never goes out of fashion.

THE RELIABILITY OF A WELL-BUILT VEHICLE

With a **10-year warranty*** on the body, high-performance materials and state-of-the-art construction processes.

10 YEAR GUARANTEE
BODY PROTECTION

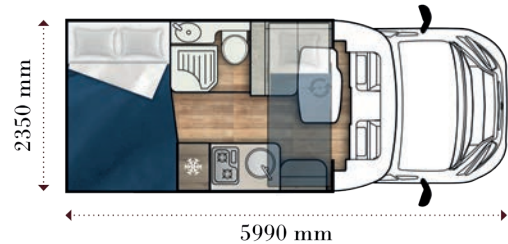

elnagh.com

*Carry out regular maintenance at the authorised Elnagh network and the tests provided for the control of infiltration to be carried out during the service coupons as per the specific deadline specified in the warranty booklet. For the detailed conditions ask the authorised sales network.

BARON

ELNAGH WELCOMES YOU INTO THE FAMILY

DESIGNED FOR YOU, WHO HAVE ALWAYS DREAMED OF ENTERING THE WORLD OF PLEIN AIR

VERSATILE IN EVERY WAY

There is a Baron perfect for every type of crew: low-profiles suitable for couples and families of four people or overcab models suitable for large families of seven people. The Baron offer is characterized by the possibility of choosing practical and manageable vehicles under 6 meters or vehicles where space becomes synonymous with choice, there is room to sleep up to 7 people. In the Baron range, Elnagh provides nine layouts, 3 overcab models and 6 low-profiles.

WHY CHOOSE BARON

BARON 579

LIVING COMFORT

SPACES BUILT TO OFFER YOU MAXIMUM COMFORT AT ALL TIMES

A DOUBLE-X OVERCAB

The Baron's overcab has a depth of **150 cm**. It guarantees comfort and safety thanks to its **window and anti-condensation panels**. To increase your comfort in the living room, on some models the **overcab bed** can be **elevated***.

GET LIGHT ON BOARD!

The Seitz windows and the three portlights above the dinette, in the middle and at the rear of the vehicle in the overcab models ensure that the compartment is always well ventilated and illuminated. In low-profile models, the portlight above the dinette is replaced by an openable **panoramic roof** with blind and flyscreen.

DOUBLE THE SLEEPING AREA

On all Baron models you can **convert the dinette** into a **double and/or single bed** depending on the model and thus expand the sleeping area.

* Available on overcab Baron 65

Some of the features shown do not correspond to the final features of the vehicle for the current season.

See all photos of Elnagh range on elnagh.com

Upholstery under the elevating bed with LED backlit panel

Storage on the sides of the dome

Curved doors allow for more storage inside the wall unit

Mirrored entrance wall and practical storage pockets

Large refrigerator, capacity 137 l / 145 l depending on models

BARON 579

LIVING AREA

CONCRETE AND RATIONAL ENVIRONMENTS

- Dinette with swivel seats that integrate into the living area
- Led profiles and lighting under wall units
- Tv holder
- Both fixed and movable **tables with 360° rotation** depending on models*
- **Dinette convertible** into double and/or single bed depending on models
- Electrically operated elevating beds
- Roman blinds
- Thanks to the double-glazed windows, blind and mosquito net and the three skylights located above the dinette area and in the central and rear areas of the vehicle, the passenger compartment enjoys natural light and is always well ventilated.
- In the low-profiles the standard dinette panoramic roof measures 100x80 cm to ensure an even brighter living area.

*On overcab models, the 360° rotating table is available on the Baron 65

FABRICS

MILK
SUGAR
COFFEE

S= standard O=optional - = not available VTR= Fibreglas MTS= multi-layered plywood

The mass in running order includes the weight of the empty base vehicle, of the driver (75 kg), 100% of the fuel (60-l tank), fresh water (tank filled with 20 l while travelling), and aluminium gas cylinders (max. 15 kg) filled to 90% of their capacity, and tolerance specified in the type-approval (+/- 5%) (2007/46/EC). Anything not included in the standard version of the vehicle, both living unit and chassis, results in an increase in weight in running order with resulting decreased payload up to the possible reduction of approved seats in the case of the total weight for the available payload value. The available payloads result from the difference between maximum permissible mass and running order mass and have a tolerance of 5%. During the purchase phase it is necessary to check the weight of the options to be installed on the vehicle.

BARON LOW-PROFILES

*Three sleeps always available!
The fourth bed can be obtained by converting the dinette into a single bed*

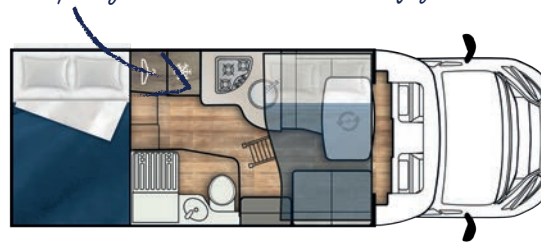

BARON 531

*Type-approved fifth seat
Opposing bench seating for up to 5 people in the living area*

BARON 573

*Maxi pantry!
Pull-out pantry between kitchen unit and refrigerator column*

BARON 560

*Twin beds with reclining backrest
You can relax in your room thanks to the possibility of adjusting the backrests*

BARON 575

FUNCTIONAL, PRACTICAL. MADE-TO-MEASURE!

THE T-LOFT RANGE IS DESIGNED TO MAKE THE MOST OF TRAVEL EXPERIENCES

Maximum comfort, without compromises, suitable for both couples and families of four or five. The living spaces are modern, elegant and well designed. The details are high class, such as the LED profiles and the chrome finish of the handles. A cosy atmosphere welcomes you with the choice of warm tones and glossy finishes on panels, wall units and table. Functional in its living solutions, it surprises with its internal living comfort, with many solutions for rationalising interior space. The T-Loft range consists of 5 different layouts, all for low-profile models.

The mass in running order includes the weight of the empty base vehicle, of the driver (75 kg), 100% of the fuel (60-l tank), fresh water (tank filled with 20 l while travelling), and aluminium gas cylinders (max. 15 kg) filled to 90% of their capacity, and tolerance specified in the type-approval (+/- 5%) (2007/46/EC). Anything not included in the standard version of the vehicle, both living unit and chassis, results in an increase in weight in running order with resulting decreased payload up to the possible reduction of approved seats in the case of the total weight for the available payload value. The available payloads result from the difference between maximum permissible mass and running order mass and have a tolerance of 5%. During the purchase phase it is necessary to check the weight of the options to be installed on the vehicle.

MAGNUM

BUSINESS CLASS? NO, MAGNUM CLASS!

LEAVE WORK, THE CITY AND THE HUSTLE AND BUSTLE AT HOME. GET ON THE MAGNUM AND GO.

Magnum is the top of the Elnagh range: a perfect balance between elegance and functionality. Offers high-end technical and styling solutions. The standard equipment, such as the Winter Pack, is excellent. The exterior and interior design is unique. Excellent storage solutions both in the living area and in the rear of the vehicle, designed for the couple but also for the family of four or five. The environment is comfortable, elegant, rational and well organised to offer maximum well-being both when travelling and during your stay. The interior living solutions are practical without sacrificing the comfort of cosy rooms. The interior features warm tones and glossy finishes on panels, wall units and table. The Magnum range consists of 3 different layouts, all for motorhomes.

WHY CHOOSE MAGNUM

FUNCTIONAL SPACES

PRACTICAL AND INTELLIGENT SOLUTIONS FOR LIVING SPACES ACCORDING TO YOUR NEEDS DAY AFTER DAY

TOP-OF-THE-RANGE EQUIPMENT

Cold temperatures are not a problem, Magnum is there for you even in winter, thanks to the standard **Winter Pack**.

PAGE-SAVING ELEVATING BED

In the Magnum motorhome models, you can **sit comfortably in the dinette** even if the bed is lowered.

FUNCTIONALITY AND COMFORT

The twin beds are **2 metres long** and can be converted into a **maxi double bed** thanks to the practical and convenient extension that allows you to increase the surface area of the bed in just a few moves. **The mattresses are anti-mite and hypoallergenic with wooden slatted base.** The sleeping area is also equipped with an **aerial connection socket** and a **USB socket**.

EASIER PASSAGE TO THE DINETTE

Movable folding top table, with 360° rotation. Depending on the space you need, you can adjust the table opening.*

CONSTRUCTION TECHNOLOGY

ELNAGH BODY

INSIGHT

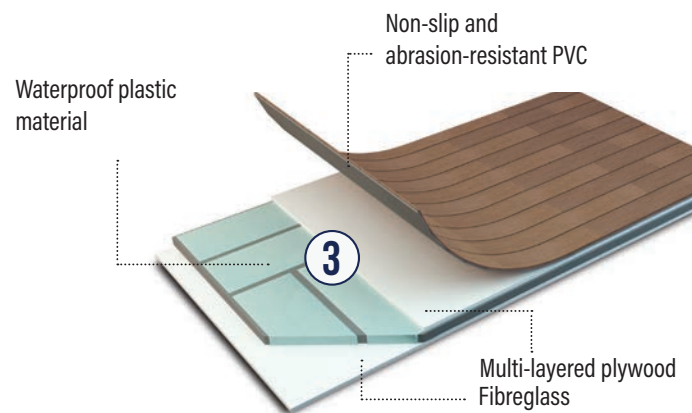

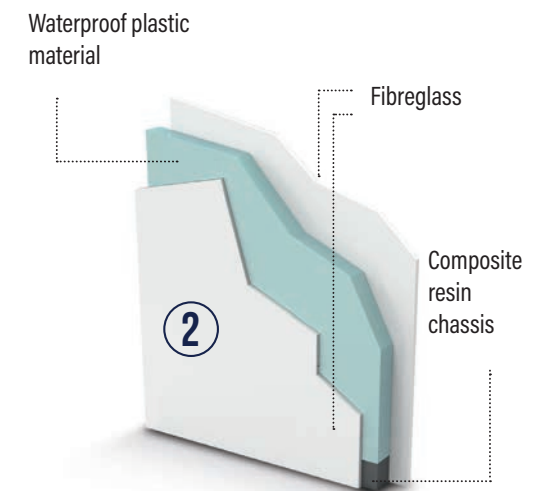

10 YEAR GUARANTEE
BODY PROTECTION

ROOF BY A DOUBLE SHEET OF FIBERGLASS, EXTERNAL AND INTERNAL, PVC CHASSIS AND WATERPROOF PLASTIC INSERTS, THICKNESS 30 CM.

WALL WITH DOUBLE SHEET OF FIBERGLASS, EXTERNAL AND INTERNAL, PVC FRAME AND WATERPROOF PLASTIC INSERTS, THICKNESS 30 CM.

FLOOR, 54-CM THICK, WITH NON-SLIP, ABRASION-RESISTANT PVC LINING, CONSISTING OF AN EXTERNAL FIBREGLASS SHEET AND INTERNAL MULTILAYER, PVC FRAME AND WATERPROOF PLASTIC INSERTS.

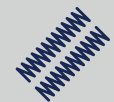

INSULATION

Maximum water resistance and perfect insulation ensure better insulation.

RESISTANCE

Wear-resistant and easy to maintain.

STABILITY

Maximum torsional rigidity and increased stability

THE GARAGE

THE STRUCTURE

Fibreglass lower cover to protect the compartment from outside moisture. The interior is 30-mm thick plastic, with structural strips for greater rigidity and tightness. The floor is made of linoleum to protect the loading surface from wear and make it easier to clean.

-  **HEATED**
Maxi-garage with heating vents.
-  **LIGHTED**
Maxi-garage with light.
-  **EASY TO LOAD**
Double access door, creating through-loading compartment. The doors open at 180°.
-  **SAFE**
The doors are equipped with a double lock.
-  **VARIABLE VOLUME**
The sliding rail bed system in the models with transverse and central beds** allows you to have more space wherever you want, in your room or in the garage.
-  **LONG LASTING**
Anti-rain, anti-splash and anti-frost rubber weatherstrips ensure opening even at low temperatures.

* weight that can technically be loaded which affects the type-approved places or the remaining total payload
** Transverse double bed: Baron 26, Baron 560, T-Loft 450. Central bed: Baron 579, T-Loft 582, Magnum 582

BREATHE FRESH AIR

THE ELNAGH DESIGN TEAM STUDIED THE OPTIMUM WAY TO EVEN OUT THE TEMPERATURE AND AVOID CONDENSATION

Wall units installed by leaving space from the wall of the motorhome. Air flows evenly, preventing condensation and mould.

Anti-condensation panels spaced from the wall in the living and sleeping areas for air and heat circulation.

Mattresses with lower cover in technical, quilted breathable fabric. Top and sides made of quilted polyester.

Slatted bases in all beds that let air pass between the base and the mattress.

Overcab heated through special vents

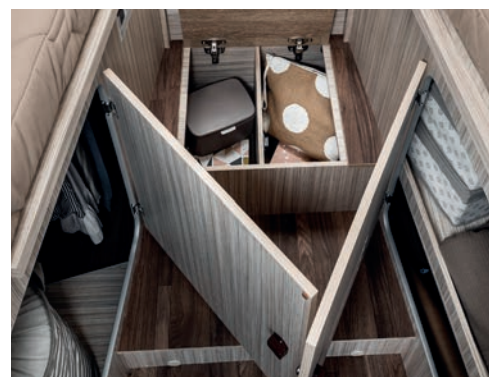

INTERNAL STOWAGE

STOWAGE IN THE CAB

Open cab cut-out designed for convenient stowage. In the overcab models, convenient stowage pockets are provided. **The motorhome models** are equipped with a **large container** on the side of the passenger seat where you can store all your accessories.

WARDROBES

All wardrobes and cabinets are spacious and equipped **with hangers**.

WALL UNITS

To better organise your utensils, all kitchen wall units are equipped with a convenient double shelf.

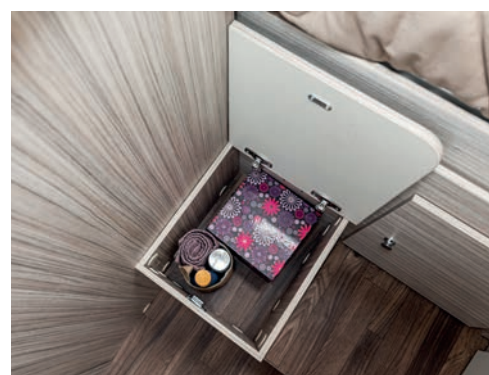

ELEVATING BASES

A simple mechanism allows you to **raise the slatted bases** in the beds and make use of the wardrobes and stowage space under the beds

MAXI BASKETS AND MAXI PANTRY IN THE KITCHEN

The baskets inside the kitchen unit doors are spacious and **removable** to better organise the stowage of provisions or accessories. On some models, you can increase stowage space thanks to a practical full-height pull-out pantry between the kitchen unit and the refrigerator column

STOWABLE STEPS

The bed steps have a dual function: they facilitate access to the beds and can be **stowed** if necessary.

FIAT CHASSIS

Created from the continuous cooperation with manufactures, Fiat Ducato is the perfect combination of chassis and living unit. There are many presettings to facilitate the transformation, a specific electrical system and a cab designed with reinforced uprights and pre-cut roof.

STANDARD EQUIPMENT

DASHBOARD - NEW

Ducato offers a brand new dashboard:

- Heavily renovated
- Fully Re-designed
- Featuring new Tech Contents
- Comfortable & User friendly
- New White Backlighting, extended to every single command

ELECTRIC POWER STEERING SYSTEM - NEW

The brand new electric power steering system replaces hydraulic system on whole range.

Moreover, the new electric steering system offers:

- Power supply technology adapts steering effort to vehicle speed
- Increased steering precision
- Higher driving pleasure, while reduces effort during parking maneuvers
- Improves fuel consumption and reduce CO2 emissions thanks to the adaptive energy consumption
- Keep current steering ratio
- Engine bay is freed from former hydraulic power steering specific parts.

STEERING WHEEL AND GEAR LEVERS - NEW

The new steering wheel is now a revolution for motorhomes maneuverability: New car-like design - three spoke style

The gear lever is more ergonomic and rounded, with an elegant glossy finish.

ESC: ELECTRONIC STABILITY CONTROL - UPDATE

On new Ducato, the system has been upgraded, adding 3 new features:

- **CROSS WIND ASSIST.** Through the use of brakes, intervenes to help stabilize the vehicle through strong crosswinds, helping to keep the vehicle from drifting out of its lane
- **TRAILER STABILITY CONTROL SYSTEM.** Detects when a trailer is starting to oscillate and corrects any dangerous trailer swing, through a combination of either torque reduction and/or individual wheel braking
- **POST COLLISION BRAKING SYSTEM.** Intervenes in the event of an accident, automatically applying brakes to prevent secondary potential collisions

CRUISE CONTROL

for complete relaxation at the wheel, the speed is constant and the foot is free to move. Includes Speed limiter, which prevents you from exceeding the set maximum speed.

ECOPACK

consisting of: - Start and Stop system: for reduced fuel consumption. Automatically restarts at the touch of the accelerator pedal - Smart alternator: intelligent alternator that provides only the energy needed - Electronic fuel pump: for energy saving and high fuel efficiency.

MANUAL CAB CLIMATE CONTROL

enhanced and diffused ventilation to the entire cab.

STANDARD EQUIPMENT

- Manual cab climate control
- ESP
- Cruise Control
- Double Airbag
- Electric door mirrors and defroster
- Height-adjustable seats and double arm rest
- Chrome instrument cluster
- USB socket on dashboard + Cup holder
- Radio provision with DAB aerial
- TPMS: tyre pressure monitoring system
- Citroën chrome front grille

CITROËN CHASSIS

The style of the Citroën Jumper models is modern and takes up the latest styles of the brand: the signature of the chevrons combined with the daytime running lights, fluid lines which are not aggressive, but that transmit safety and robustness.

Interiors are welcoming and can be configured with swivel seats to facilitate movement on board.

The engine of the Citroën Jumper is equipped with the latest SCR-AdBlue technology and complies with the most recent standards, thus reducing fuel consumption and CO2 emissions

QUALITY AND TEST

BECAUSE WE KNOW THAT SATISFYING OUR CUSTOMERS DEPENDS GREATLY ON THE QUALITY OF OUR PRODUCTS.

Elnagh puts its own experience and expertise at the service of every van produced and follows it throughout the production stage with inspections and tests from design to delivery that meet European standards.

The same quality standards are demanded of suppliers: for the most strategic components, a check is carried out when the material is received and before it is used in production.

CHECKS IN PRODUCTION STAGE

Test on operation of the gas pipes.

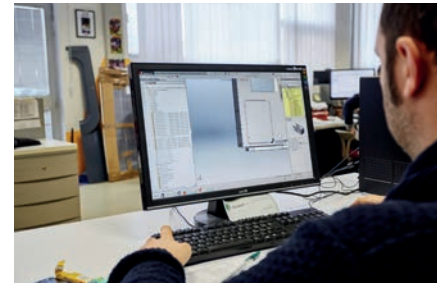

Correct installation of the hydraulic systems.

Check of operation and correct installation of the electrical systems.

TESTS IN RESEARCH, DEVELOPMENT AND PROTOTYPING STAGE

Specific testing in climatic chamber to check the resistance, duration and performance of the materials selected at extremely high/low temperatures

Performance tests on the components used. Durability of materials, resistance to stress, reliability and compliance with European regulations in the design of the seatbelt unit.

100 statistical checks on a percentage of the vehicles produced: aesthetic, functional, noise and fitting tests.

TESTS ON FINISHED PRODUCT

Waterproofing tests on 100% of the vehicles produced, before delivery.

Gas system inspection by certified staff according to the German DVGW protocol

Electronic weighing of 100% of vehicles before delivery and written weight certification for end customer

RANGE IN THE VAN 2022 CATALOGUE

NOTES

The masses indicated in this catalogue refer to the provisions of European Directive 2007/46/EC.

MASS IN RUNNING ORDER

It includes the weight of the empty base vehicle, of the driver (75 kg), 100% of the fuel (60-l tank), fresh water (tank filled with 20 l while travelling), and a gas tank for living purposes (20 kg).

The mass in running order, and consequently the payload and/or certified seats may vary depending on the accessories installed.

PAYLOAD

This consists of the difference between the maximum technically permissible laden mass and the mass in running order. It includes elements for living purposes, the transported passengers defined by the manufacturer (driver excluded), and the personal effects.

The payload calculation is based on the following parameters: 75 kg for each passenger (driver excluded), 10 kg of baggage for each passenger and for the driver, 10 kg for each metre of length of the vehicle, plus the remaining payload, which can be used for the installation of accessories or for additional baggage.

All masses and loads of the empty vehicle have a tolerance of +/- 5%, in compliance with Directive 2007/46/EC.

Any optional equipment increases the mass in running order and decreases the payload.

The weight of non-standard accessories is not included in the mass in running order indicated in this catalogue.

Additional accessories and devices reduce the payload by a quantity equal to their weight; the incidence of the weight of the individual accessories is shown in the special column in the technical data sheets or can be requested at our dealers.

In case certain accessories are installed (for example, additional elements such as coupling device or motorbike rack), the mass of these accessories will affect the payload, possibly reducing it along with the number of certified seats. Please note that the law does not allow the maximum permissible mass to be exceeded, which can be consulted under the specific heading of the data sheets.

Please make sure that the maximum loads on the axles and the maximum technically permissible load mass are not exceeded during the complete loading phase of the vehicle.

The regulations and requirements of each country may entail changes in the characteristics of this table.

The number of certified seats may vary depending on the traffic regulations in force in each country.

When driving, the fresh water tank must be filled to a maximum of 20 litres.

This catalogue does not represent contractual documentation, but only general information.

SEA S.p.A. operates with an Integrated Environment and Safety Management System.

NOTES

ELNAGH reserves itself the right to change the characteristics and the furnishings of all its models with no advance notice required; all data contained in this leaflet must therefore be considered approximate and non-binding. Despite thorough checks of the contents, we cannot exclude possible printing and/or translating errors.

This catalogue does not constitute contractual documentation.

For the above reasons, all information relating to the specifications and equipment of each model must be requested prior to purchase from the dealer, who, as the sole contact person, will confirm or correct the data published by updating the customer on the characteristics and actual equipment of the relevant vehicle being negotiated.

Any reproduction, including in part, of the text or of the content of this document is prohibited.

The indicated weights are exclusively approximated. Tolerances of $\pm 5\%$ are allowed.

Generally speaking, special equipment and options increase the no-load weight and entail a reduction in the payload.

We hereby decline any and all responsibility in case structural changes are made to the vehicle; any assembly, disassembly or changes carried out by unauthorised workshops may jeopardise your safety and cause the warranty clauses to be forfeited.

For additional information on installation and technical details, please contact one of our dealers.
